Cable from Rome, October 16, 1947, Re Negotiations for a Treaty of Friendship, Commerce and Navigation with Italy.

The attached cable recently sent from Rome will perhaps be of some interest as futther indicating the gratifying progress with which negotiations for a treaty of friendship, commerce and navigation with Italy have apparently proceeded.

Apropos of Mr. Dunn's expression of satisfaction with the "steady flow of information and decisions from the Department" I would like to record a word of appreciation for the fine spirit of helpfulness and prompt cooperation consistently displayed by members of your staff, notably Le/E and Le/T, in securing the expeditious dispatch of outgoing cables.
